The July wheat yield and production forecast are based on two surveys conducted by the Southern Plains Regional Field Office: a farm operator survey and an objective yield survey. The farm operator survey was conducted primarily by telephone with some use of mail, internet and personal interviews. The objective yield survey collects actual stalk counts and head weights from plots set up in producer fields across the states of Oklahoma and Texas.

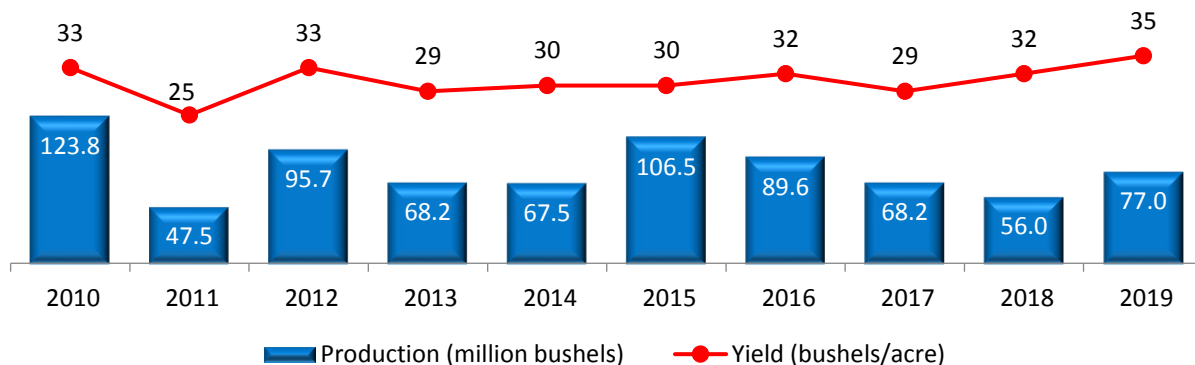

Data provided by Oklahoma and Texas operators are the foundation of the estimates for the Southern Plains region. We would like to thank all farmers who responded to the Ag Yield survey and to those wheat producers who permitted objective measurements to be taken in their fields.

Oklahoma Wheat Production and Yield

Wheat production for **Oklahoma** is forecast at 105 million bushels, up 49 percent from last year. This forecast is down 6.5 million from the Oklahoma June forecast. Yield per acre is expected to average 38.0 bushels, up 10.0 bushels from the previous year. Acres expected to be harvested for grain, at 2.75 million acres, are up 10 percent from 2018.

Texas Wheat Production and Yield

Wheat production for **Texas** is forecast at 77.0 million bushels, up 38 percent from last year. This forecast is down 0.6 million from the Texas June forecast. Yield per acre is expected to average 35.0 bushels, up 3.0 bushels from 2018. Harvested acreage for grain, at 2.20 million acres, is up 26 percent from the previous year.

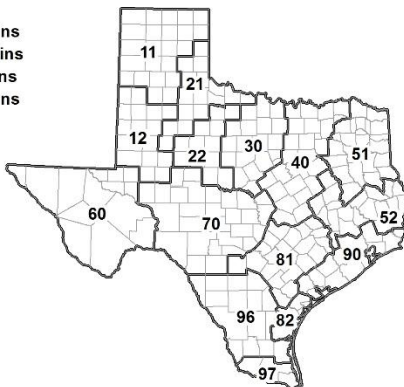

Winter wheat production in the Northern High Plains is forecast at 36.0 million bushels, up 82 percent from last year. Winter wheat production in the Blacklands is forecast at 10.5 million bushels, down 26 percent from the previous year. The Southern Low Plains production is estimated at 11.6 million bushels, up 32 percent from 2018.

Texas Wheat District Estimates, Final 2018 and July 1, 2019 Forecast

District	Planted Acres		Harvested Acres		Yield Per Acre		Production	
	2018	2019	2018	2019	2018	2019	2018	2019
	<i>1,000 acres</i>	<i>1,000 acres</i>	<i>1,000 acres</i>	<i>1,000 acres</i>	<i>bushels</i>	<i>bushels</i>	<i>1,000 bushels</i>	<i>1,000 bushels</i>
